## **ISPCON Spring 2007, "The Internet Industry Event," Returns to Orlando May 23-25 to Reveal "What's Hot" in Internet Services**

NEW YORK --(Business Wire)-- Jupitermedia Corporation (Nasdaq: JUPM) today announced that ISPCON Spring 2007 (<http://www.ispcon.com>) will get underway next week, May 23 - May 25, at the Rosen Centre Hotel in Orlando, Fla., where hundreds of top executives, VCs and journalists will gather for three days of unparalleled conference sessions, exhibits and networking. Now in its 14th year, ISPCON will focus on the industry's hottest Internet services and technologies, while providing attendees with actionable business strategies to be more successful and competitive in this ever-changing marketplace.

Event highlights include:

-- More than 50 seminars, presentations and panels addressing a wide variety of topics such as Managed Services, SaaS and Web Services, Messaging and Collaboration, Voice Services, Muni Wireless, Open Source, Hot Verticals and more, with each session offering success stories, case studies and real-world operating knowledge and experiences.
